

ET TRANSPORTABLE SERIES

TRANSPORTABLE CASES

Our transportable repeaters consist of a full-function Codan LMR radio repeater specially packaged for portability with all the accessories required to instantly create a local repeater site.

Capable of interfacing to first responders' handsets and mobiles, it creates a relay between first responder units and opens communications lines back to existing infrastructure, receivers and base stations. Transportable repeaters are available for VHF, UHF and 700/800 MHz operation in either analog or digital P25 modes.

ET-1 LARGE SYSTEM CASE

ET-3 ALUMINUM TRANSPORTABLE CASE

ET-4 RUGGEDIZED SYSTEM CASE

LARGE SYSTEM CASE

Codan's ET-1 case supports a standard 19" Codan subrack and has an internal mounting height of 6, 9, 12 or 15 RU. The case is weatherproof and constructed from high-density polyethylene with reinforced walls. It has recessed handles, smooth latches, anodized valances and a pressure relief valve. The rack is shock mounted and the lid gasket is watertight. Racks can be mounted inside the front and back of the case.

The ET-1 case is optimal for crossbanding applications. It is often used by public safety organizations for crossbanding between all of the frequency bands used by First Responders. Configurations are available that can support Lowband, VHF, UHF and 800 MHz crossbanding from one or all bands, providing the ultimate interoperability solution.

ALUMINUM TRANSPORTABLE CASE

Codan's ET-3 case is a rugged, pressurized, waterproof, aluminum 19" transportable case accommodating one subrack. It features spring-retracted handles, smooth latches, a pressure-relief valve and desiccant. It is available in high visibility orange. Any standard 19" Codan subrack can be mounted inside. In addition to the space for a 3U high subrack, the transportable case has a 2U space free for optional modules. The lid has a steel plate to magnetically mount an antenna.

The ET-3 is perfect for deployment in extreme environments, mountaintops, fighting forest fires.

RUGGEDIZED SYSTEM CASE

Codan's ET-4 Briefcase Repeater is a compact polyethylene case that accommodates standard Codan LMR radio modules as well as an optional battery backup, duplexer and accessory storage box. The case is rugged, waterproof, and easily deployed by one person.

An interface connection on the side of the case provides access to the RF, DC and AC inputs. The case is made of high performance resin offering impact resistance. Press and Pull latches offer secure case closure and are padlock-able. Soft grip handles, in-line wheels and a telescoping handle provide ease of transportation by individuals.

Values noted are typical. Equipment descriptions and specifications subject to change without notice or obligation.
