AUSTRALIAN BORDER FORCE/BORDER WATCH
VKS-737 RADIO NETWORK

Built to withstand

THE TOUGHEST ENVIRONMENTS AND HARSHEST CLIMATES

Our products have the

HIGHEST RELIABILITY

from

RURAL AND REMOTE AREAS TO OUTBACK REGIONS

OUR PROCESS

Solving challenging requirements is what we do best

ASSESS

Our technical consultants will conduct a detailed on-the-ground assessment of:

- Human needs
- Operational environment
- Opportunities and challenges
- Cultural context
- Scenario planning

DESIGN

Our field service team will then design a custom solution for those challenges, using the right hardware and software from Codan or one of our technology partners.

DEPLOY

Our specialist logistics team gets the hardware and the resources to wherever you are, getting your system up and running fast.

TRAIN

We'll train operators and communications staff on how to use the system — which will be a short process, thanks to our easy-to-use interfaces and interoperability.

SUPPORT

We're available to be deployed within 24 hours for any support required. And we're always on hand for any advice you require.

CHALLENGING REQUIREMENTS?
NO PROBLEM

It's often a challenge to retain communication and keep safe in remote locations, ensuring there are no gaps in coverage at critical moments. We know you want to maintain contact with family and report incidents no matter how remote your location.

We hear you.

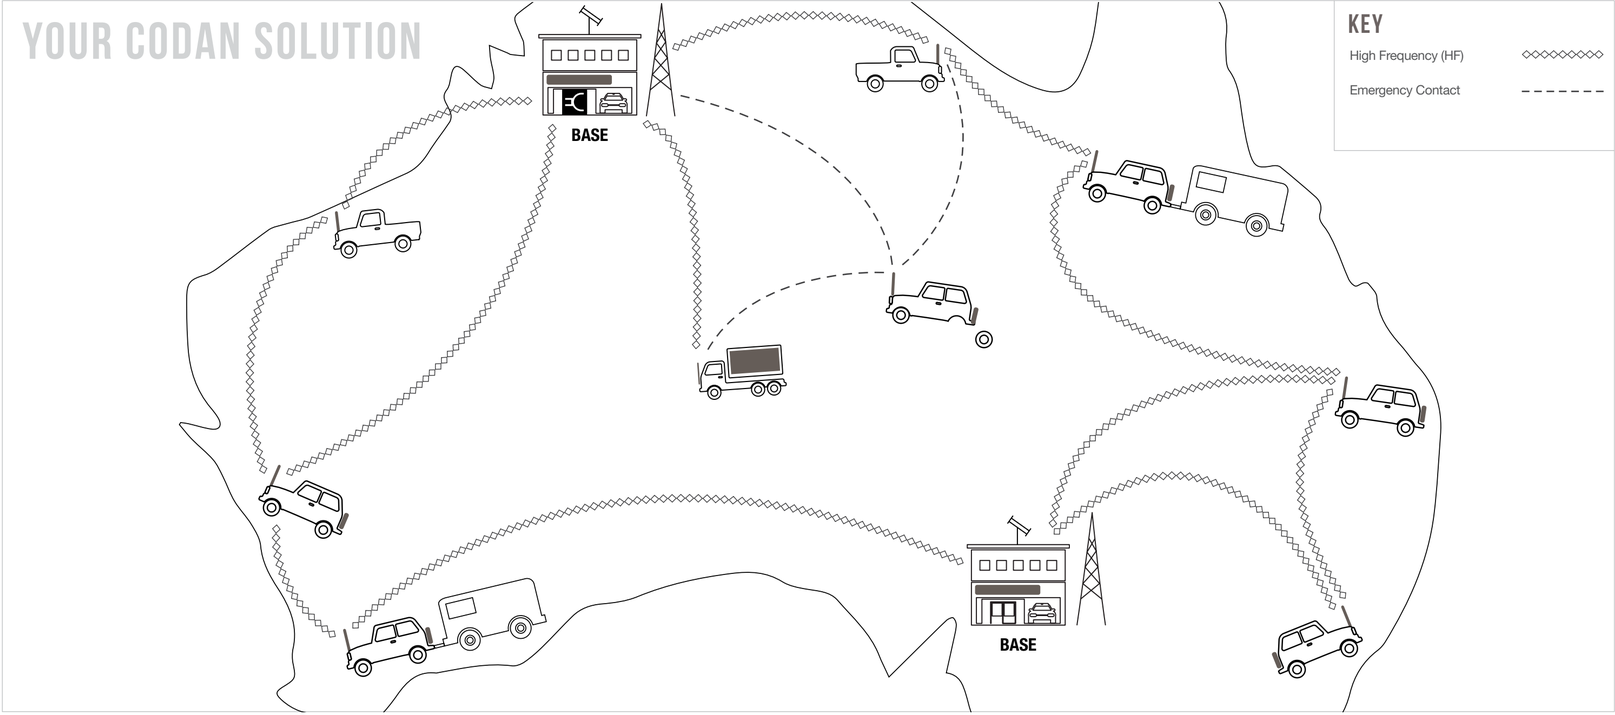
OUR CLIENTS TELL US THEY NEED...

- To provide complete and easy emergency communication solutions to protect the lives of workers and travellers in rural, remote and outback areas of Australia
- To provide a reliable, easy to use HF Radio-Telephone Interconnect service
- The ability to remotely control and monitor all base stations from multiple access points
- A monitored support network

...AND THAT'S WHY OUR SOLUTIONS DELIVER...

- A technology suite that covers HF transceivers and radio-telephone interconnects capable of operating in both analogue and digital modes capable of being operated and controlled remotely
- Tested and tried performance, deployed in the toughest environments and harshest climates
- Proven reliability of technology
- Established relationships with reliable network service providers

YOUR CODAN SOLUTION



PRINCIPLES

So how do you know it's a Codan Communications solution? Our six principles apply to every solution we create.

WE GO WHERE YOU GO

We design and deliver solutions to every country on earth and every operational environment, from mine sites to distant fisheries to remote forests

NO GAPS COVERAGE

Our products are built to the highest standard so your team will never be isolated or out of connectivity, no matter where they need to go

RELIABILITY

Our products don't fail. We've tested and deployed them in the toughest environments and harshest climates, and back this up with our three year extendable warranty

FAST DEPLOYMENT

We move with you to the most inhospitable places on earth to get you up and running fast. And because we know that radio expertise is rare, our team do the configuration with you

PURE SIMPLICITY

We have an easy-to-use system, intuitive interfaces, native language support and training to get users active fast

CONNECT AND SCALE

We have access to a huge range of products and systems, allowing interoperability, scale, and budget flexibility
